WATERSHED CONDITIONS STATEMENT
Water Safety

Credit Valley Conservation
1255 Old Derry Road, Mississauga, ON, L5N 6R4
Telephone: (905) 670-1615 Fax: (905) 670-2210

Issued to: Municipalities, Police, Emergency Services, School Boards, Media, Local Conservation Authorities, CVC Staff and Board Members

Date: January 14, 2014

Time: 5:00 P.M.

The weather system which went through Southern Ontario last weekend produced approximately 10 mm of precipitation and temperatures reaching as high as 8 ºC.

Runoff from the precipitation and the melt was limited with much of the rain being soaked up by the snow pack. Yesterday's milder temperatures may have resulted in some additional melting. Higher flows have been observed in the lower reaches of the Credit River watershed due to the accumulation of upstream runoff from the upper watershed.

As a result, local streams and rivers will remain a safety concern, especially in the vicinity of culverts, bridges and dams. Children should be warned to stay away from all watercourses.

CVC will continue to closely monitor weather and water levels and ice conditions in the watershed. The Water Safety Statement will be in effect through Friday January 17, 2014 or until further notice.

For more information on this Water Safety Statement, please contact CVC during office hours at 905- 670-1615. In the event of an afterhours flood emergency, call 1-800-215-8505.

Courtney Alexander
Flood Duty Officer

NOTE: A Watershed Conditions Statement for Water Safety is issued when high flows, unsafe banks, melting ice or other factors that could be dangerous for recreational users such as anglers, canoeist, hikers, children, pets, etc. Flooding is not expected.
